[activity assessment schedule]

national activity assessment

The national activity assessment supports the American National Standards (ANS) process infrastructure and is based on the total number of American National Standards sponsored by the standards developer; this fee includes the costs associated with the mandatory routine audit applicable to all ANSI-accredited standards developers. The following formula applies:

total number of ANS	assessment	total number of ANS	assessment
0-3	\$ 1,740	405-524	13,900
4-54	3,780	525-604	16,625

325-404	12,175		

international activity assessment

The international assessment has two components, each calculated separately, and is applied in addition to the basic dues of relevant members. The first component is applied to ANSI members that hold ISO, IEC and/or JTC 1 secretariats. Assessments are based upon the number of ISO, IEC and/or JTC 1 TC and/or SC secretariats administered. The second component is applied to members that administer U.S. Technical Advisory Groups (TAGs). The assessments are based on the number ISO, IEC and/or JTC 1 TC's and/or SC's for which the organization administers a US/TAG.

NOTES:

1. Organizations that administer 6 or more US-held secretariats for ISO, IEC or JTC 1 TCs and/or SCs should contact Joseph Tretler, Director, International Technical Programs and Services (jtretler@ansi.org) for more information concerning international assessment fees.
2. Organizations that administer US/TAGs for 11 or more ISO, IEC or JTC 1 TCs and/or SCs should contact Joseph Tretler, Director, International Technical Programs and Services (jtretler@ansi.org) for more information concerning international assessment fees.
