			case studies from global enterprises.	
JULY			BACK TO TOP ^	
July 7-8	IDSP Workshop 1 – Identity Verification Standards	Washington, DC	This workshop will explore the desirability and feasibility of standardizing the identity verification process across government agencies that issue identity credentials. Government issuers of identity credentials typically depend upon an applicant's presenting credentials issued by another agency to establish identity. Since each agency follows a different standard for identity verification, there is a loophole where identity theft and fraud can occur.	For more information, contact the IDSP staff
July 24-25	Implementing Privacy Protections in Government Data Mining	Washington, DC	The Department of Homeland Security Privacy Office will host this public workshop to bring together leading academic, policy, and technology experts to explore methods of validating the accuracy and effectiveness of data mining models and rules, and the role of anonymization tools and automated audit controls in protecting privacy.	For more information, visit the conference website .
July 31	Symantec Government Symposium	Washington, DC	This conference will bring together 500 government IT, security, and business professionals from across all levels of government at this free, one-day event. Topics to be covered include what's ahead for FISMA 2.0, data center consolidation, the new \$6 billion National Cyber Security Initiative, among others.	For more information, visit the conference website .
AUGUST			BACK TO TOP ^	
Aug 18-21	Privacy Symposium	Cambridge, MA	An executive education program on privacy and data security policy and practice. The Privacy Symposium will address a number of key national and international privacy policy issues and present industry-specific hypothetical case studies. The Symposium will convene a wide variety of noted experts in the field, with the goal of developing and sharing thoughtful and practical approaches to privacy and security policies and procedures. IDSP staff will be presenting.	For more information, visit the conference website .
SEPTEMBER			BACK TO TOP ^	

Sept 22-24	The 2008 IAPP Privacy Academy	Orlando, FL	The Academy will focus on the operational aspects of privacy, particularly technology and will provide sound advice and practical tools to effectively guide privacy policy and practice.	For more information, visit the conference website .
OCTOBER			BACK TO TOP ^	
Oct 2-3	7 th Annual Data Protection Compliance Conference	London, UK	Hosted by Privacy and Data Protection (PDP), this two day conference provides organizations with key resources and information for succeeding in the fields of data protection, privacy and records management.	For more information, visit the conference website .
Oct 22-24	7 th Annual Smart Cards in Government Conference 2008	Washington, D.C.	This conference features leaders from the federal government and industry in an interactive forum on the business issues, implementation milestones, and technology advancements happening in the government smart card market – including the government’s HSPD 12 directive underway for federal and contract employee Personal Identity Verification (PIV) cards, electronic passports, WHTI Passport Cards, the TWIC port security program, among others.	For more information, visit the conference website .
Oct 22-24	Global Warning! Economic Crime at Home and Abroad	Potomac, MD	At this conference, the Economic Crime Institute of Utica College brings together experts in the field to share insights about the proliferation of fraud around the globe.	For more information, visit the conference website .
NOVEMBER			BACK TO TOP ^

Topics include wireless security solutions, HSPD-12 experiences, security compliance, cross-border identity management, IPv6 security concerns, and ways to avoid data breaches.	For more information, visit the conference website .
DECEMBER			BACK TO TOP ^	

The IDSP Events Calendar is provided as a service to IDSP members to facilitate the scheduling of future meetings as well as to enable members to share information about upcoming conferences that they feel would be of interest to fellow IDSP participants. If your organization is holding a meeting related to identity theft prevention and/or identity management and wishes to have it included on this calendar, or if you want to highlight another organization's event, please send a link to the information to Alison Ziegler, IDSP Program Administrator (aziegler@ansi.org). We will periodically update the calendar to keep it current. Thank You.
