Healthcare Information Technology Standards Panel

## 2009 webinar series . . . HITSP and U.S. healthcare IT interoperability

The Healthcare Information Technology Standards Panel (HITSP) is identifying the standards that will support the exchange of healthcare information across the United States. Learn more about the Panel and how you can engage in shaping the future of HIT interoperability during a series of **free webinars** that will be held on the third Thursday of each month during 2009.

### Advances in Sharing Information in Healthcare IT

#### What you will learn

During this 90-minute webinar, participants will receive a high-level overview of HITSP and its role and responsibilities, including:

- the Panel's 2008 accomplishments;
- the relationship of HITSP to the National eHealth Collaborative Board, the new private-sector led successor to the American Health Information Community (AHIC);
- the latest HITSP initiatives including newborn screening and clinical research; and
- how HITSP specifications are being implemented today.

#### Who should attend

Consumers, government representatives and policy makers, healthcare providers, standards developers, vendors, and any other interested stakeholder.

#### Presenter

John D. Halamka, MD, MS, chair of HITSP.

Dr. Halamka is also CIO of the CareGroup Health System, CIO and dean for technology at Harvard Medical School, chair of the New England Health Electronic Data Interchange Network (NEHEN), CEO of MA-SHARE, and a practicing emergency physician.
