

HITSP

Healthcare Information Technology Standards Panel

2009 webinar series . . . HITSP and U.S. healthcare IT interoperability

The Healthcare Information Technology Standards Panel (HITSP) is identifying the standards that will support the exchange of healthcare information across the United States. Learn more about the Panel and how you can engage in shaping the future of HIT interoperability during the 2009 **free webinar series**.

webinar five

HITSP eTown Hall I with Dr. John Halamka

What you will learn

During this 90-minute webinar, participants will hear from Dr. John Halamka about HITSP and its efforts to address Health Information Technology (HIT) provisions of the *American Recovery and Reinvestment Act of 2009* (ARRA):

- Understand the relationship between ARRA and HITSP's work
- Discover how HITSP has re-focused the energies of its volunteers, staff, and leadership to meet ARRA requirements
- Learn how HITSP specifications can help achieve the ARRA requirement for "meaningful use" of electronic health records by enabling health information exchange

Who should attend

Consumers, government representatives and policy makers, healthcare providers, standards developers, vendors, and any other interested stakeholder.

Presenter

John D. Halamka, MD, MS, chair of HITSP

Dr. Halamka is also vice chair of the HIT Standards Committee, CIO of the CareGroup Health System, CIO and dean for technology at Harvard Medical School, chair of the New England Health Electronic Data Interchange Network (NEHEN), CEO of MA-SHARE, and a practicing emergency physician.
