

# HITSP

Healthcare Information Technology Standards Panel

## 2009 webinar series . . . HITSP and U.S. healthcare IT interoperability

The Healthcare Information Technology Standards Panel (HITSP) is identifying the standards that will support the exchange of healthcare information across the United States. Learn more about the Panel and how you can engage in shaping the future of HIT interoperability during the 2009 **free webinar series**.

webinar seven

### HITSP eTown Hall II with Dr. John Halamka

#### What you will learn

During this 90-minute webinar, participants will hear from Dr. John Halamka about HITSP and its continuing efforts to address Health Information Technology (HIT) provisions of the *American Recovery and Reinvestment Act of 2009* (ARRA):

- Get an update on the final definition of meaningful use released by the HIT Policy Committee.
- Examine the relationship between HITSP work products and meaningful use.
- Explore how HITSP will continue to work with the Office of the National Coordinator, the HIT Standards Committee, and the HIT Policy Committee to facilitate the development of needed standards and achieve interoperability.
- Learn more about the next work products for HITSP.

#### Who should attend

Consumers, government representatives and policy makers, healthcare providers, standards developers, vendors, and any other interested stakeholder.

#### Presenter

John D. Halamka, MD, MS, chair of HITSP

Dr. Halamka is also vice chair of the HIT Standards Committee, CIO of the CareGroup Health System, CIO and dean for technology at Harvard Medical School, chair of the New England Health Electronic Data Interchange Network (NEHEN), CEO of MA-SHARE, and a practicing emergency physician.
