

HITSP

Healthcare Information Technology Standards Panel

2009 webinar series . . . HITSP and U.S. healthcare IT interoperability

The Healthcare Information Technology Standards Panel (HITSP) is identifying the standards that will support the exchange of healthcare information across the United States. Learn more about the Panel and how you can engage in shaping the future of HIT interoperability during the 2009 **free webinar series**.

webinar eight

Medication Management Real World Sites

What you will learn

During this 90-minute webinar, participants will learn from industry professionals how the HITSP Medication Management Interoperability Specification is being used today by the Regenstrief Institute, DrFirst, and Surescripts:

- Explore the value and limitations of external sources of medication history.
- Learn how various standards are employed in the HITSP Medication Management transactions.
- Discover how DrFirst and Regenstrief have employed HITSP in the real world in the areas of e-prescribing, patient eligibility, formulary and benefit inquiry, and medication reconciliation.

Who should attend

Consumers, government representatives and policy makers, healthcare providers, standards developers, vendors, and any other interested stakeholders.

Moderator

Ken Majkowski, Pharm. D., Vice President, Clinical Affairs and Product Strategy, Surescripts

Presenters

J. Marc Overhage, M.D., Ph.D., Director of Medical Informatics and Research Scientist, Regenstrief Institute

Peter N. Kaufman, M.D., Chief Medical Officer, DrFirst, Inc.
