

# HITSP

Healthcare Information Technology Standards Panel

a webinar series on U.S. healthcare interoperability

The Healthcare Information Technology Standards Panel (HITSP) is identifying the standards that will support the exchange of healthcare information across the United States. Learn more about the Panel and how you can engage in shaping the future of HIT interoperability during a series of **free webinars** held throughout the Summer of 2008.

webinar two

## Building Blocks for Healthcare Interoperability

### What you will learn

Building on concepts introduced in webinar one, this 90-minute session will help participants better understand:

- how HITSP is helping to pave the way for interoperable healthcare information;
- core concepts utilized by the Panel to harmonize standards for a specific business case as well as cross-cutting topics such as privacy, security, infrastructure and other supporting services; and
- the relationship between and among the components of a HITSP Interoperability Specification (IS) — how they build upon one another and how they are shared across IS.

This webinar will include a real-world use case that demonstrates how HITSP IS will help make medical information for “Steve” — a patient struggling with the long-term effects of a brain tumor — available and usable at the various places he goes for follow-up or emergency care.

### Who should attend

Consumers, government representatives and policy makers, healthcare providers, standards developers, vendors, and any other interested stakeholder.

### Presenters

Jamie Ferguson, Executive Director, Health IT Strategy and Policy, Kaiser Permanente;  
Walter G. Suarez, MD, MPH, President & CEO, Institute for HIPAA/HIT Education and Research

webinar two

### Date and Time

Thursday, June 19, 2008  
2:00 — 3:30 pm EDT

### Registration

Complimentary

### Access

Participation during the live event requires both telephone and Internet connections.

## June '08

### MARK YOUR CALENDARS!

The HITSP webinar series includes a total of nine presentations during the period of June 5 to September 18, 2008. **Every session is free!**

Participate live or view an archived session on [www.HITSP.org/webinars](http://www.HITSP.org/webinars)

**Webinar 1**     **Standardizing How We Share Information in Healthcare: An Introduction to HITSP**

archived version: [www.HITSP.org/webinars](http://www.HITSP.org/webinars)

**Webinar 2**     **Building Blocks for Healthcare Interoperability**  
Thursday, June 19, 2008 — 2:00-3:30 pm EDT

**Webinar 3**     **Consumer Access to Clinical Information**  
(Consumer Perspective TC)  
Thursday, June 26, 2008 — 2:00-3:30 pm EDT

## July '08

**Webinar 4**     **Biosurveillance**  
(Population Perspective TC)  
Thursday, July 10, 2008 — 2:00-3:30 pm EDT

**Webinar 5**     **Electronic Health Record (EHR) and Lab Reporting**  
(Provider Perspective TC)  
Thursday, July 24, 2008 — 2:00-3:30 pm EDT

## August '08

**Webinar 6**     **Quality**  
(Population Perspective TC)  
Thursday, August 7, 2008 — 2:00-3:30 pm EDT

**Webinar 7**     **Security, Privacy and Infrastructure**  
Thursday, August 21, 2008 — 2:00-3:30 pm EDT

## September '08

**Webinar 8**     **EHR and Emergency Response**  
(Provider Perspective TC)  
Thursday, September 4, 2008 — 2:00-3:30 pm EDT

**Webinar 9**     **Medication Management**  
(Cross-TC - Provider Perspective TC)  
Thursday, September 18, 2008 — 2:00-3:30 pm EDT

**Sponsored by**
